

FIZZICS EDUCATION

**A**

**B**

1. Glue this template onto some card.
2. Cut all solid lines, including line '3'.
3. Cut out rectangles '1' and '2'.
4. Fold all of the dotted lines, angled away from the template. The template will be on the outside of the completed box.

**2**

**B**

5. Create the box by attaching the corresponding lettered flaps to each other.
6. Insert a CD inside the box through the slot created with line '3' with the rainbow side facing up.
7. Look through the square hole, and you should be able to see light splitting!
